ABOUT **BAREEZ GLOBAL**

At Bareez Global, we bring you the purest Himalayan Salt, Saltera carefully hand-harvested from ancient salt deposits formed over millions of years. Our mission is to deliver natural wellness products that enhance everyday life while staying true to authenticity, sustainability, and quality.

We believe in purity, transparency, and eco friendly practices. Every product is crafted with care to preserve the natural essence of the Himalayas while meeting international quality standards.

WHAT KIND OF PRODUCTS CAN WE MANUFACTURE?

We can offer you tailor made products in the light of your specific need and request. Our factory is purpose built and is well equipped with modern facilities to produce the wide range of salt products. These include but are not limited to:

- **Salt Lamps**
- **Edible Salt**
- **Bath Salt**
- **Salt Candle Holders**
- **Salt Culinary**
- **Home Décor**
- **Animal Lick Salt**

How Do We Prepare Salt

SALT MINING PROCESS

Salt Mining

Salt is extracted from the depths of the Himalayas at Khewra Mine, Pakistan.

Salt Storage

Salt is stored in our state-of-the-art warehouses until it is ready for processing.

Salt Screening

Following storage, the salt is carefully screened again for consistency

Washing

The salt is thoroughly washed to remove impurities and ensure cleanliness.

Drying & Screening

After drying, the salt undergoes a second screening process to ensure quality.

Crushing

The salt is crushed to enhance handling and simplify further purification.

SALT PURIFICATION PROCESS

Optical Color Sorting

Our Optically Clean Technology identifies and removes unwanted particles like clay, stone, and rock, along with salt crystals containing undesirable inclusions. Using a precision air jet system, the salt is processed twice for maximum purity.

Aspiration

Removes lighter foreign particles such as plant matter, fibers, and wood, enhancing purity.

Sieving

We offer a wide range of grain sizes, carefully sieved to ensure consistent sizing in every order

Dedusting

Eliminates dust generated during transportation and processing, including granulation residue.

Rare-Earth Magnets

Our strong rare-earth magnet system removes ferrous metals and magnetic contaminants, ensuring the salt is clean and 100% pure for the next stage.

Packaging

We design custom containers and use dustproof, moisture-proof bulk packaging. All salt is packed in our state-of-the-art facility in Pakistan

EDIBLE SALT

At Bareez Global, we take pride in offering premium-quality edible salts sourced from the finest natural origins. Our salts are carefully selected, minimally processed, and packed to preserve their purity, rich mineral content, and authentic taste. Whether used in everyday cooking or gourmet dishes, Saltera salts add a touch of natural goodness and elevate the flavor experience, making them a trusted choice for households and culinary professionals alike.

Pink Salt – Known for its distinctive rosy hue and natural mineral richness, Saltera Pink Salt is harvested from ancient deposits, ensuring purity and authenticity. Its mild, well-rounded flavor enhances everyday meals while providing trace minerals, making it a healthier alternative to refined table salt.

Black Salt (Kala Namak) – With its unique, slightly tangy and smoky flavor, Saltera Black Salt is a favorite in traditional cuisines and vegan recipes alike. Widely used in South Asian cooking, it adds depth to chutneys, salads, snacks, and beverages, offering not just taste but also digestive benefits.

Sea Salt – Naturally harvested from evaporated seawater, Saltera Sea Salt retains essential minerals that give it a clean, crisp taste. Its versatile texture makes it suitable for cooking, baking, or finishing dishes, providing a natural alternative to processed salts while maintaining the authentic essence of the ocean.

Himalayan Salt Lamps

Bring the Natural Glow of the Himalayas into Your Space

At Saltera, we craft premium Himalayan Salt Lamps sourced directly from the pristine foothills of the Himalayas. Each lamp is a unique masterpiece, radiating warmth, wellness, and natural beauty for your home or workspace.

Benefits of Himalayan Salt Lamps

Improve Air Quality

Salt lamps are often claimed to improve the air quality of your home. More specifically, they are beneficial for people with allergies, asthma or diseases that affect respiratory function. The claim that they are good for people with respiratory conditions may be partly based on the ancient practice of halotherapy. In this therapy, people with chronic respiratory conditions are said to benefit from spending time in salt caves due to the presence of salt in the air.

Enhance Mood

Many studies suggest that negative ions improve mood and energy levels by increasing serotonin in the brain. Therefore, Himalayan salt lamps can benefit people suffering from seasonal affective disorder (SAD) and other forms of depression.

HIMALAYAN SALT LAMP

Himalayn Natural Shape Lamp

BGL-001

Himalayan Kitchen Salt Products

Salt block cooking may be a new concept for some, but it's definitely worth exploring. Beyond its practicality, who wouldn't admire the stunning blush-pink hue of Himalayan salt, naturally enriched by the sun? Cooking on a salt block offers several advantages over traditional methods. Himalayan salt blocks have exceptional heat resistance, ensuring even heat distribution. When cooking on one, your food absorbs 80+ beneficial minerals, enhancing both flavor and nutrition. The block retains very little moisture, providing a delicate, naturally salty taste. Its crystalline structure holds heat longer, making it ideal for roasting meats, serving food, and keeping dishes warm.

Additionally, salt blocks are a natural anti-microbial surface due to their low porosity and moisture retention, which helps prevent bacterial growth. Unlike typical cookware, Himalayan salt slabs are dense and conduct heat slowly, ensuring food is seasoned evenly and thoroughly. Cooking on a Himalayan salt block infuses food with essential minerals, enriching its nutritional value while adding a more complex, refined flavor profile. This unique method not only enhances taste but also transforms the cooking experience.

HIMALAYAN ANIMAL LICK SALT

Himalayan Lick Salt is the perfect salt, nutrition, and mineral supplement for cattle, horses, and other livestock at all life stages. Packed with essential nutrients, these salt licks support bone, muscle, and overall development.

Lactating cows, for example, are particularly susceptible to salt deficiency, as milk production requires significant amounts of sodium and chloride. Himalayan Lick Salt is more than just salt—it is a comprehensive health supplement for cattle, horses, buffaloes, sheep, camels, and even farm pets.

Himalayan Bath Salt

Our premium Bath Salt Crystals are carefully crafted from natural minerals, designed to provide a relaxing and refreshing bathing experience. Enriched with essential elements, these crystals help rejuvenate both body and mind. Bath Salt Crystals work effectively to relieve stress, soothe tired muscles, and promote a sense of deep relaxation. A warm bath with these crystals leaves you refreshed, energized, and ready to unwind.

Each crystal dissolves gently into warm water, releasing natural minerals that detoxify and refresh the body. This simple yet powerful bath ritual helps reduce fatigue, restore balance, and uplift your mood. Specially designed for everyday wellness, our Bath Salt Crystals are ideal for those who want to combine relaxation with skincare. They are suitable for all skin types and deliver visible softness after every bath.

Private Label Solutions

Make Your Own Brand

At Bareez Global, we take pride in offering a wide range of high-quality products designed to meet the diverse needs of our customers. Our catalog showcases carefully selected items that reflect our commitment to excellence, innovation, and value. Each product is crafted with precision and attention to detail, ensuring reliability and satisfaction for our customers across different markets

In addition to our own brand, we also extend the opportunity for private label solutions. Whether you are a retailer, distributor, or business looking to build your own identity in the market, Bareez Global can support you with customized products under your own label. From product development to packaging and design, our team works closely with partners to deliver tailored solutions that align with their business goals.

With Bareez Global, you not only gain access to trusted products but also a dedicated partner committed to helping you grow your brand presence and strengthen your customer relationships.

“THE ESSENCE OF NATURAL WELLNESS”

FAQ

01: What is the Minimum Order Quantity (MOQ) for SKUs?

A: The MOQ for each SKU is flexible. Orders can be placed as an LCL (Less than Container Load), allowing multiple SKUs in a single shipment. Available product categories include Himalayan Edible Salt, Salt Lamps, Candle Holders, Cooking Salt Products, Detox Massage Stones, and more.

02: How can a product sample be ordered?

A: Complimentary product samples are available for international shipping. To request a sample, please email the specific requirements using an official domain email/ID to Sales@bareezgv.com. Terms and conditions apply.

03: What information is required to request a sample?

A: To process a sample request, please provide the following details via email:

- Business postal address with zip code.

04: How can the sample dispatch status be tracked?

A: Once dispatched, a courier tracking code will be provided to monitor the shipment status.

05: How to Make Sample request?

To process a sample request, please provide the following details via email:

- Bareez Global company
- Contact person Name
- Designation
- Address
- Contact Number

“THE ESSENCE OF NATURAL WELLNESS”

FAQ

06: What is the shipment tolerance/variance level?

A: A $\pm 5\%$ tolerance level is applied in terms of weight, value, and quality.

07: What documentation and details are required to confirm an order?

A: To confirm an order, please provide the following:

- Purchase Order (PO) with SKU details
- Bank details for wire transfer (50% advance payment)
- Customized packaging, branding, and labeling requirements (if applicable)
- Destination port details with the expected landing date
- Official shipping line details (if applicable)
- Any special instructions or requirements

08: What steps should be taken before cargo arrival?

A: Once you get confirmation on a sailing vessel, you need to transfer the remaining 50% due payment.

09: What is DP?

A: DP is a payment term requiring 100% payment before the vessel arrives at the destination port. Orders are initiated with a 50% advance payment against the Purchase Order (PO), and the remaining 50% must be wire-transferred once the vessel's sailing from the origin port is confirmed. If the final payment is delayed, the ETA (Estimated Time of Arrival) may be affected, and any resulting demurrage charges will be the responsibility of the buyer/notifying party.

10: What are the shipping terms?

A: Shipping terms include FOB (Free on Board), CNF (Cost & Freight), and CIF (Cost, Insurance & Freight).

“THE ESSENCE OF NATURAL WELLNESS”

FAQ

11: What are the payment terms?

A: A 50% advance payment is required, with the remaining 50% payable against the original Bill of Lading (B/L) via courier. In some cases, payment against LC (Letter of Credit) may also be considered.

12: What are the accepted payment methods?

A: Payments can be made via Telegraphic Transfer (TT), Western Union, or MoneyGram.

13: How long does it take to ship an order?

A: Shipping time depends on the destination seaport.

14: How long does it take to dispatch an order from the warehouse after confirmation?

A: • Edible salt containers are shipped within 2 weeks of order confirmation.
• Crafted salt lamps require up to 4 weeks for dispatch.

15: Is the company a certified entity?

A: Yes, the company holds multiple certifications, including KCCI, HALAL, and ISO 9001:2015.

16: Where is the company located in Pakistan?

A: The company is based in Karachi, Pakistan.

17: What is the name of the port used for shipments?

A: Shipments are handled through Karachi Port Qassim and Karachi Port Trust

“THE ESSENCE OF NATURAL WELLNESS”

FAQ

Q: What packaging options are available for private label orders?

A: We provide a variety of packaging, including pouches, jars, and bulk packs. Customized designs and packaging styles can also be arranged to meet your specific needs.

Q: What is the minimum order quantity (MOQ) for private label orders?

A: The MOQ depends on the product type and packaging choice. Please contact our team for details.

Q: Can you support with label and packaging design?

A: Yes, our design team can assist in creating label and packaging designs that reflect your brand identity.

Q: How do I start the process for private label orders?

A: Simply reach out to our sales team with your requirements, and we will guide you through packaging options, design, and order details.
